- Proof of Identity
(Actual passport / Seychelles National Identity Card)
- Skill Test / Licence Proficiency Check (LST or LPC on type(s) applied for)
(All LST and LPC forms can be found on the SCAA website)

VALIDATION OF FLIGHT CREW LICENCES ISSUED BY ICAO CONTRACTING STATES ISSUE AND RENEWAL

GUIDANCE

General Guidance

- 1) The validation of flight crew licences granted by ICAO Contracting States is in accordance with the provisions of Part-FCL Annex III, for the time being in force, and with the standard set out in paragraph 1.2.1 of Annex 1 (Personnel Licensing) 6th Edition to the Convention on International Civil Aviation and is effected by the Seychelles Licensing Authorities only in exceptional circumstances and for specific purposes, eg for individual delivery of aircraft, demonstration flights, conversion training flights or agricultural flying to meet a short term operational requirement which cannot reasonably be performed by Seychelles licensed flight crew.
- 2) Before a licence is validated, it must have the aircraft type(s) for which the validation is required, specified in the Aircraft Rating. The authority shall also have the type(s) on its register of aircraft.
- 3) Applications for a Certificate of Validation may be accepted when submitted by the Seychelles operating company on behalf of the holder of a non-Seychelles professional pilot's licence, and whose service they wish to utilise for a specific short-term purpose. Applications from individual licence holders may also be accepted. Certificates of Validation, when issued, must be passed to the licence holder who should retain it with the licence to which it relates, so that both may be produced on request to a person so authorised.
- 4) Proof of identity – Actual passport or Seychelles National Identity. A photocopy will be acceptable provided all the relevant information is clearly presented and the copy is certified by the Seychelles operating company.
- 5) Letter of Verification from the issuing Authority to confirm licence issued in full compliance with ICAO Annex 1, applicants name, date of birth, licence held, ratings held on licence, currency and validity of licence, medical details and current ICAO language proficiency grade. The SCAA will not accept verifications supplied directly by the applicant, nor shall we recognise an expired licence, rating or medical certificate in any circumstance. If the verification received and the foreign licence do not match the SCAA will not issue or renew any validation certificates. Some Foreign Authorities require a fee to be paid before the verification can be released to the applicant or to SCAA. In such cases the applicant or Seychelles Operating Company shall be liable to make any payment in regards to acquiring the licence verification from said Foreign Authorities. It is also important to note that several Foreign Authorities have their own internal timeline on when they issue licence verifications and thus acquiring said verifications might take some time depending on said Foreign authority.
- 6) If you are going to use the radio in the aeroplane. A valid English Language Proficiency at a minimum of Level 4 is required to be shown on your ICAO licence are required prior to the test. If this is not held you must meet these requirements

The SCAA will be unable to process the validation application until all of the requirements have been met and all of the required documentation is received. SCAA will not validate an expired licence. Your licence must be valid at the time of the validation request.
