NOTES FOR THE COMPLETION OF THIS APPLICATION FORM

1. Quote the name, address and contact details (email, telephone) of the applicant.
2. Design Change or Repair Details
 - Indicate the applicant's reference number of the design change or repair.
 - List all the aircraft type and model(s) on which the design change or repair is applicable.
 - List all the aircraft registration mark(s) on which the design change or repair is installed.
 - Indicate a title for the design change or repair.
 - Provide a brief description of the design change or repair.
3. Compliance
 - Select the applicable Airworthiness code or Operational requirements affected by this change.
 - Select as many methods of compliance as applicable.
4. Approved Documentation and Other Documentation
 - Indicate which documentation(s) is affected by the design change or repair.
5. Amendment to Approved Documentation
 - Add reference to all necessary amendments submitted for approval.
 - Amendments to the documentation marked * should also be submitted to SCAA Flight Operation for approval.
6. Indicate reference to previous approval(s) granted by a foreign airworthiness authority, if applicable. Evidence of such approval must be provided with the application submission.
7. The application must be signed by authorised personnel within the applicant organisation.
8. The SCAA Approval/Acceptance number allocated to the design change or repair must be quoted in the release documentation.
